

The Colorado Ready Mixed Concrete Association (CRMCA) is a Colorado based not for profit organization representing the interests of the state's ready mixed concrete industry. Founded in 1956, the CRMCA promotes the use of concrete both in traditional construction and paving applications as well as the latest concrete solutions. CRMCA aims to increase the use of concrete through promotional and educational efforts, maintain a strong voice for industry on legislative and regulatory matters, improve the quality of concrete testing through training and educational programs, and inform consumers/end-users about concrete applications and maintenance.

Why join CRMCA?

1. **Legislative clout.** As our membership increases so does our effectiveness on presenting a unified voice on the industry's position on legislative and regulatory issues. The majority of the industry, acting together, has far more influence than companies acting individually.
2. **Education & Certification.** Through partnership with the ACI, CRMCA offers training sessions and certification courses throughout the state. Members are eligible for up to 40% savings on these courses. We have also partnered with ASTM to offer members a 15% discount on supplementary online study material.
3. **A stronger, more effective industry.** CRMCA's ability to promote and serve the industry is dependent on the support we get from our members. The more members we have, the stronger our resources and influence are. Increasing CRMCA membership results in improving our ability to meet the industry's needs, both today and in the future.
4. **Networking.** Belonging gives you the opportunity to network with other industry members through our social events such as the Concrete Clays Shoot and our Annual Convention.
5. **Promotional opportunities.** CRMCA offers a number of promotional benefits to its members. We have three Regional Promotional Groups who meet monthly and promote concrete on a regional basis. Literature, marketing/promotional tools, and seminars are also available to CRMCA members at discounted rates.
6. **Committee Involvement/Activity.** CRMCA has a number of committees that work on behalf of the Ready Mixed Concrete Industry. The Technical Committee, the Safety Committee, Regional Marketing Committee's, and the Governmental Affairs Committee are just a few. These committees work to put on educational seminars, organize events, and disseminate information to the CRMCA membership.

CRMCA is aligned with the National Ready Mixed Concrete Association, the American Concrete Institute, the Portland Cement Association, the Colorado Stone Sand and Gravel Association, the Colorado Contractors Association, and the American Concrete Paving Association. These relationships allow us to offer a wide array of training and events, share information, avoid duplication of efforts, and stay at the forefront of concrete technology at local, national, and international levels.

2018 CRMCA Membership Application

We hereby apply for membership in the Colorado Ready Mixed Concrete Association and agree to abide by the Articles of Organization and by-laws of this Association as well as the standards and usage thereof, and such amendments thereto as may be subsequently enacted. We agree to pay all dues and/or assessments as may be legally assessed against members.

There are four types of CRMCA members:

Concrete Producer Members

Companies that are actively involved in the production of ready mixed concrete.

Cement Producer Members

Companies that produce cement.

Associate Members

Companies that provide a product or service to the ready mixed concrete industry.

Concrete Contractor Members

Construction companies that purchase concrete that is used during the course of their project.

Annual Concrete Producer Member Dues:

- 1 - 10 trucks Annual Flat Rate \$1,350
- 11 - 70 trucks Rate per truck annually \$215
- 71 - 125 trucks Rate per truck annually \$210
- 126 or more trucks Rate per truck annually \$200

Annual Cement Producer Member Dues are \$10,000.

Annual Associate Member Dues are \$850.
