

KEY CEREMONY AND VOLUNTEER BUILD DAY

APRIL 21, 2022

LOCATION: 700 VALLEY VIEW DR. WOODLAND PARK, CO.

EVENT DESCRIPTION

Join Build with Strength, NRMCA, CRMCA, ICFMA, ACPA, and Habitat for Humanity Teller County at the Trailhead Townhomes in Woodland Park, CO.

The morning will kick off with a key ceremony, presenting the new homeowners with the keys to their newly constructed concrete home. Lunch will follow the key ceremony and then the volunteer opportunity will begin.

This event will showcase the current developments of the Teller County Habitat for Humanity build, as well as explore the latest innovations in Insulated Concrete Form (ICF) construction. ICFs combine the strength and durability of reinforced concrete with the versatility of highly engineered rigid insulation to provide the most ideal building material. From improved energy-efficiency to lower life cycle costs, ICFs are the building material of choice thanks to their affordability, sustainability, and durability.

WHO SHOULD ATTEND

Contractors, designers, owners, and developers interested in learning about the benefits of building with Insulated Concrete Forms (ICFs) and concrete. All are invited to attend to assist the Habitat for Humanity team with further construction on the third town home unit.

RSVP and learn more at: <https://crmca.memberclicks.net/key-ceremony-volunteer-RSVP#/>
